**Subject:** RE: New Bedford Borrwo Pit Test Capping

I talked to Dave Dickerson, and we both think a pilot cap near the CAD 1 location would be alright. Dave would like to see adequate monitoring when capping.

Dave, if I am missing anything let Ted and I know.

Subject: New Bedford Borrwo Pit Test Capping

Ted,

How are you making out on the indemnification agreement to place dredge spoils outside of contract permitted areas? We would like to move forward

as soon as possible on the test capping and if the tests meet with your satisfaction, we would like to immediately proceed with the capping of the borrow pit.

Thank you,

Norman Bourque, Jr.
